Sisters and Brothers:

Your Bargaining Committee met with Bombardier for two days (February 1 and 2, 2022), representing our fourth session with the company's bargaining team.

Due to the current Covid19 restrictions etc. the parties met electronically via Teams which continues to be difficult and without argument, very challenging at times. We have agreed that unless some sort of new very restrictive mandate comes, we will meet in person for our next session.

This negotiating session included dealing maintenance, operations, and common demands which we are making slow progress on as the company continues to associate everything as a financial burden. We fully expect our next session to start dealing with our bigger demands and ensure that this meeting time is used wisely and not just a meeting, for the sake of meeting.

As noted we have also confirmed meeting in person on February 21, 22, 23, 2022 and will continue to schedule dates with the Company as necessary in order that our demands are dealt with. As all are aware we are only able to inform general aspects of bargaining but, we do expect after our next session what may or may not be required to ensure your demands are heard and dealt with for successful progress.

After each session, we will provide Division 760 with an updated bulletin. Please distribute these materials to ensure that members are informed of these developments.

As always, we thank everyone for their patience and understanding during this process.

In Solidarity,

---
